EDUCATION

University of Engineering and Technology (UET), Lahore

2025 - 2029

BS Artificial Intelligence — 1st Semester CGPA: 3.865 / 4.00

EXPERIENCE

Independent AI App Developer — Self-Directed / Build in Public

2025 – Present

- Designed and shipped cross-platform AI applications, including a dual-model (Claude + Grok) Android chat assistant.
- Built strong foundations in C, C++, OOP, and Data Structures & Algorithms (DSA) through consistent self-study and applied projects.
- Documented the build-in-public process across GitHub and LinkedIn, maintaining a personal portfolio site and a 30-day AI content series.

Technical Writer — Technical Writing (HU-221), UET Lahore

- Authored a technical report, “AI in Software Development: Comparison with Traditional Manual Development,” supervised within the AI undergraduate program.

PROJECTS

Awais AI — Dual-Model AI Chat Assistant (Android)

- Built an Ionic/Capacitor Android app offering a ChatGPT-like experience with switchable Claude and Grok (xAI) API backends.
- Handled API key routing, authentication, and billing integration across both the Anthropic and xAI platforms.

Nexus AI Chatbot — Desktop Conversational Assistant

- Built a C++ desktop chatbot with the Qt framework, applying core OOP concepts for a clean, modular design.
- Integrated the Groq API for fast, real-time conversational responses, with JSON request/response handling.

AI Virtual Assistant — Voice-Enabled Web Assistant

- Developed a browser-based AI assistant using HTML, CSS, and JavaScript with Puter.js for model access, supporting both voice and text input.
- Deployed live on GitHub Pages, learning the full Git push and Pages deployment workflow in the process.

CPP Programming Labs / DSA in C++ — Data Structures & Algorithms Practice

- Maintained two topic-organized C++ repositories (18 core topics) covering DSA and OOP fundamentals, each with a progress-tracking README.
- Compiled a polished PDF reference guide from the CPP Programming Labs repository for portfolio and interview use.

Personal Portfolio Website

- Designed and deployed a personal portfolio (codewithawais05.github.io/Portfolio) using HTML, CSS, and vanilla JavaScript, hosted on GitHub Pages.

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, HTML, CSS

Frameworks: Qt Framework, Android Studio

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

AI / APIs: Anthropic Claude API, xAI Grok API, Groq API

Tools & Platforms: Git, GitHub, GitHub Pages, Firebase
