EDUCATION

University of Engineering and Technology (UET), Lahore

2025 - 2029

BS Artificial Intelligence — 1st Semester CGPA: 3.865 / 4.00

EXPERIENCE

Self-Directed Learning & Project Development

2025 - Present

Aspiring Software Developer — Fresher

- Currently building strong foundations in **C, C++, and Data Structures & Algorithms (DSA)** through consistent self-study and practice.
- Actively developing personal projects to apply OOP concepts, API integration, and front-end web technologies.
- Exploring AI/ML integration in applications, including mobile deployment and voice-based interfaces.
- Continuously improving problem-solving skills by working through DSA problems in C++.

PROJECTS

AWAIS AI : AI-Powered Study Assistant App

- Developed a ChatGPT-like mobile application for study purposes, enabling users to ask questions and get instant explanations.
- Built using Android Studio and packaged as an installable APK for direct use on Android devices.

AI CHATBOT : Desktop Conversational Assistant

- Built a desktop AI chatbot using **C++** and the **Qt framework** applying core OOP concepts for a clean, modular design.
- Integrated the Groq API to enable fast, intelligent, real-time conversational responses.

AI ASSISTANT : Voice-Controlled Web Assistant

- Developed a browser-based AI assistant using **HTML, CSS, and JavaScript**.
- Implemented voice recognition to accept spoken commands and perform actions such as opening applications or websites.

DSA IN C++ : Data Structures & Algorithms Practice

- Practicing and implementing core data structures and algorithms in C++ to strengthen problem-solving and coding fundamentals.

TECHNICAL SKILLS

Programming Languages: C, C++, HTML, CSS

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming

Tools & Platforms: Android Studio, Qt Framework, Groq API, Git, GitHub
